

## Clarity 21.5" ED Open Frame Display

The Clarity Touch and Display range has been developed to provide manufacturers with maximum product flexibility combined with minimum integration cost.

The range features a standard frame design that can be upgraded to incorporate:

- **MicroTouch Single-Touch SCT**
- **MicroTouch Multi-Touch PCAP System**
- **Projective Glass (SCT / PCAP Options)**
- **ThruTouch**

The rugged metal frame provides integration points on all 4 back sides and a VESA mount to the back. The screens come equipped with industrial electronics and TFT panels for maximum reliability and performance. The AD board supports standard 3 point connection for VGA/ DVI and DP (Display port) and offers standard 12 volt operation.

### Features

- Wide Viewing Angle Display
- VGA / DVI / DP Signal input
- USB B Touch Output
- 100mm VESA Mount to Back
