

VEGA PRO™

IMPROVED DESIGN

- Banknote centering mechanism for better acceptance and security

COMPATIBILITY

- Same platform as the first generation VEGA, with the same recycler units and cash boxes

ENHANCED FEATURES

- New sensor package including a barcode sensor

COMPACT DESIGN

- Ideal for compact cabinets with limited space availability

VEGA PRO™: REBORN AS A TOTALLY NEW BANKNOTE ACCEPTOR / RECYCLER

VEGA PRO™ keeps the same compact footprint as the first generation VEGA, while security and reliability are significantly improved.

Although still categorized as an entry model, the advanced technology and the banknote recycler options make VEGA PRO™ the perfect choice for a number of applications in cash handling.

VEGA PRO™
