* Subject to Maintenance

REDUCE OPERATIONAL COSTS AND SIMPLIFY COIN HANDLING WITH THE UCR-800™

The UCR-800™ is a compact coin recycler built on One Global Hardware, supporting multiple currencies and applications worldwide. Its removable hopper module ensures quick service and flexible deployment. With a built-in memory chip storing configuration and transaction data, the UCR-800™ enables fast payouts, easy reporting, and seamless integration. Designed for low cost of ownership, it requires no replacement parts during its lifetime*—minimizing downtime and maximizing ROI.
